SPRING TIPS FROM THE CITY OF GLENDALE

GLENDALE, Ariz. -- At this time of the year, you should remember that keeping your block and neighborhood clean can go a long way in keeping your neighborhood safe and blight-free. The following "tips" should help you build a cleaner and safer community this season and throughout the year.

- Make sure you remove overgrown weeds and other dry vegetation surrounding your house and alley. Dry weeds and other vegetation in present weather conditions can easily fuel a brush fire. There is a code compliance ordinance, which requires homeowners to maintain all grass, weeds, tree limbs, bushes and shrubs.
- Make sure you don't "pile up" problems: Spring-cleaning inside your home can lead to problems outside. Boxes and other materials can be invitations for arson. Make sure they don't pile up by coordinating your spring-cleaning with bulk pickup days in your area.

To help out with the clean-up effort, the city of Glendale's Code Compliance Department will provide a dumpster free of charge to assist citizens in cleaning up their neighborhood as part of the Let's Dump It! Program. The process for requesting a container is that at least five property owners must make the request.

This program is an ongoing, cooperative effort between the city and residents to ensure compliance with city codes.

To request a dumpster or for more information, call Glendale's Code Compliance department at 623.930.3610. For more information, visit
